JULE™
SMART ABOVE GROUND POOL LIGHT

A modern, app-controlled lighting and circulation solution for above-ground pools.

Bring your above-ground pool to life with JULE™, the innovative all-in-one solution combining vibrant RGBW color-changing LED lighting and water-return functionality in one compact unit. Designed for new and existing pools, JULE™ delivers brilliant illumination, water circulation and a simplified installation. For added flexibility, the included adaptor allows JULE™ to be installed as a standalone light.

Built-in Wi-Fi and Bluetooth connectivity lets you control colors, dimmability, lighting effects and schedules directly from your smartphone. With plug-and-play installation, quick-connect fittings, interchangeable grey and white trims, safe 12V DC operation and a 2-year warranty, JULE™ delivers stunning performance and effortless control.

For existing pools, simply remove the wall jet and replace it with the JULE™ Smart Above Ground Pool Light.

SMART APP CONTROL

Change colors • Adjust brightness • Dynamic effects & modes • Create schedules

QUICK-CONNECT

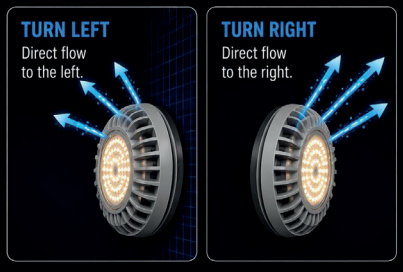

Quickly install, service or remove for winter with easy quick-connect cables.

DUAL-PURPOSE PIPE / PLUG ADAPTOR

Use as a light and water return, or as a standalone LED pool light.

360° DIRECTIONAL WATER FLOW

The adjustable trim ring around the light rotates to direct water where you want it – improving circulation and targeting specific areas of the pool.

GREY & WHITE TRIM PLATES INCLUDED

Choose the included grey or white trim to complement existing pool fittings.
