Control your JULE™ light from your phone

JULE™ Smart Above Ground Pool Light setup guide

Use the free Smart Life app to connect your JULE™ light to your Wi-Fi network, then adjust brightness, color, dynamic displays and scheduling from your phone. Follow the steps below in order.

Step 1: Download the app

Search for **Smart Life** or **Tuya Smart**, or use the links below.

- Download for iPhone from the App Store
- Download for Android from Google Play

Step 2: Check the requirements

- Allow the app to use **Wi-Fi** and **Bluetooth** so it can find your light automatically.
- Use a **2.4 GHz** Wi-Fi network. 5 GHz networks are not supported.

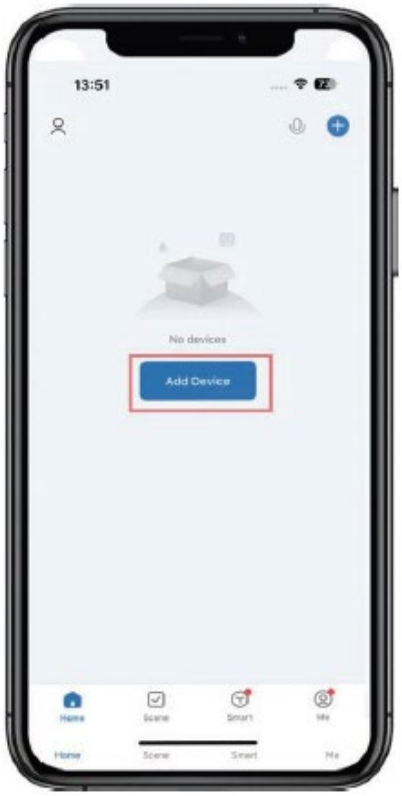

Step 3: Connect your light

Connect over Wi-Fi and Bluetooth using the quick-connect process.

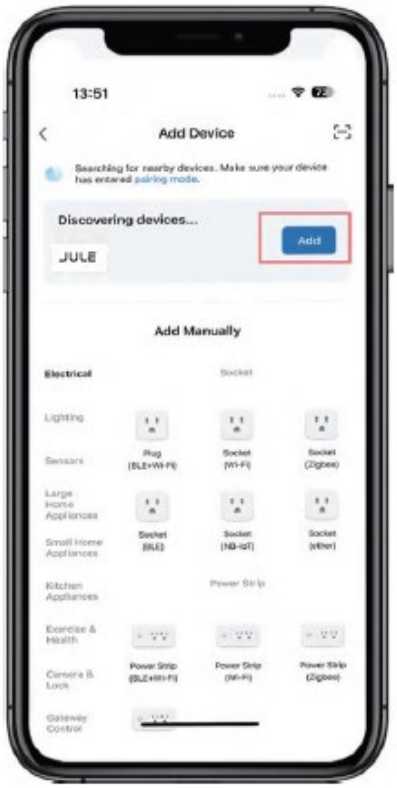

Step	What to do
1	Open the app and tap **Add Device**.
2	Wait while the app discovers your light, then tap **Add**.
3	Select your 2.4 GHz Wi-Fi network and enter its password.

Step	What to do
4	Tap **+** to add the device.
5	When the app confirms the device was added, tap **Done**.
6	The control screen opens. You can now control your light.

STEP 1

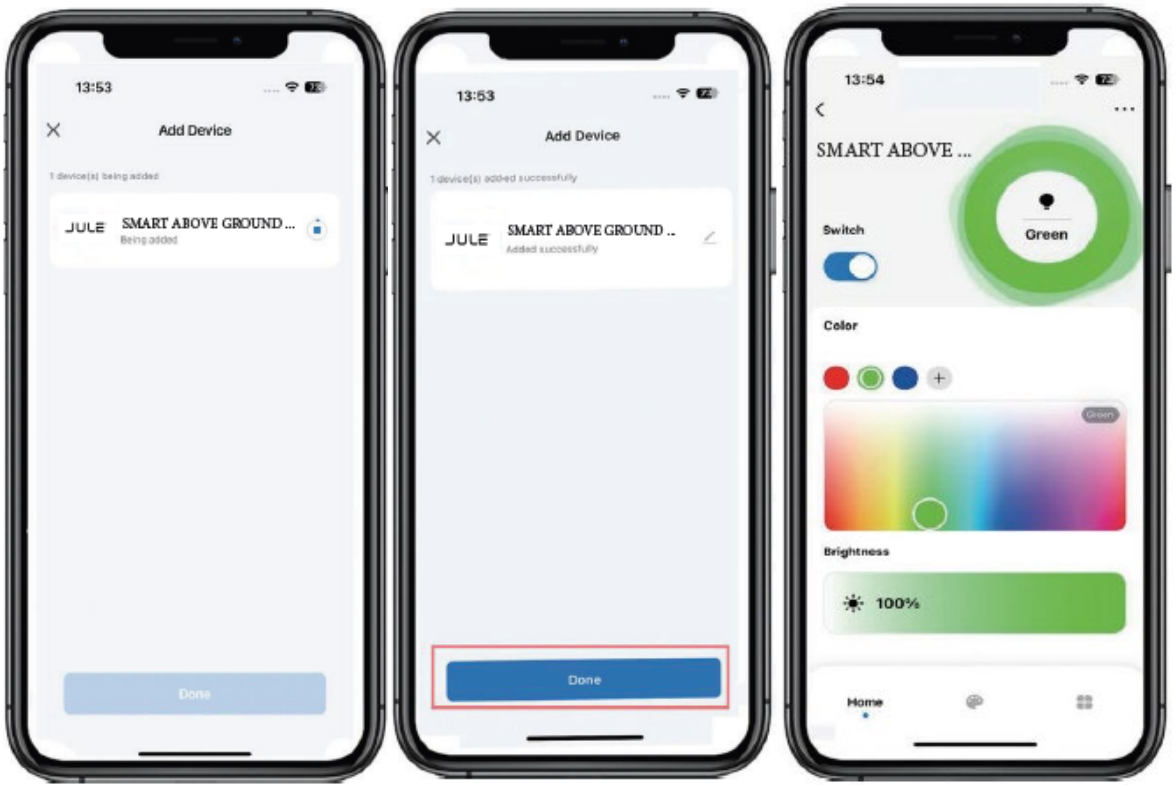

STEP 2

STEP 3

STEP 4 STEP 5 STEP 6

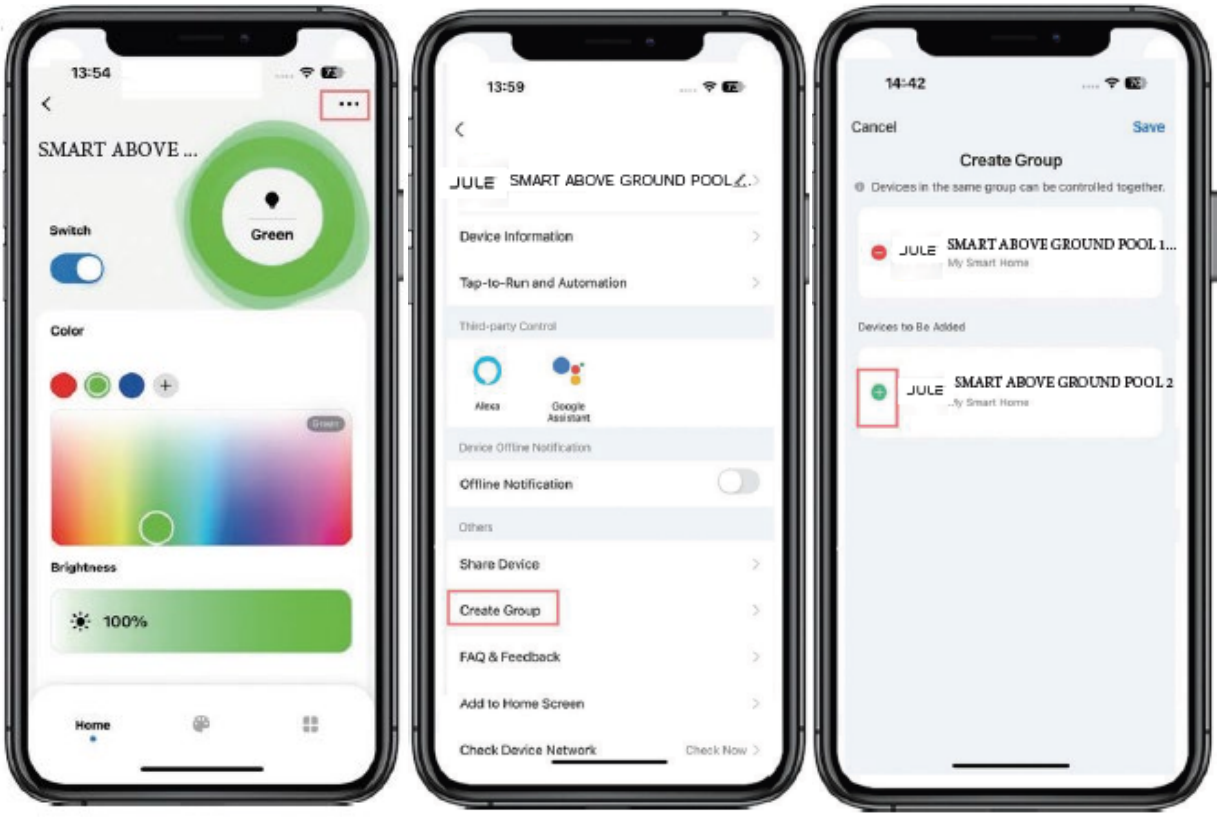

Create a group

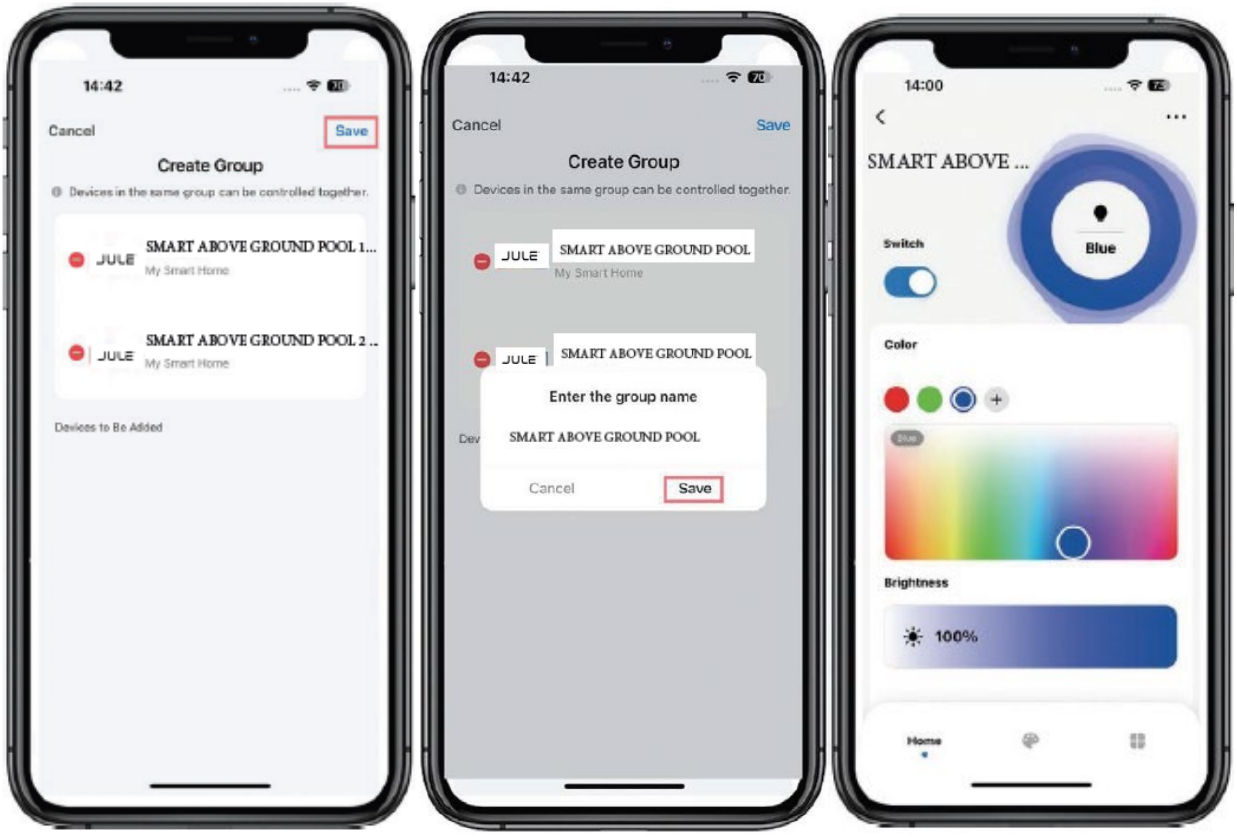

If you have more than one light, group them so they stay in sync. Set up each light first by following Step 3. Lights must be on the same Wi-Fi network to be in the same group.

Step	What to do
1	Open one of your lights and tap **....**
2	Tap **Create Group**.
3	Tap **+** to select the lights to add.
4	Tap **Save**.
5	Enter a group name and tap **Save**.
6	The app confirms the group was created.

STEP 1 STEP 2 STEP 3

STEP 4 STEP 5 STEP 6

Rename a light

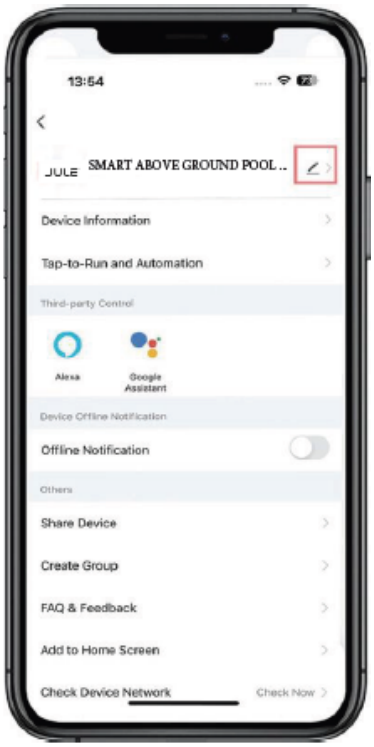

Give each light a name that tells you where it is, such as “Pool” or “Garden”.

Step	What to do
1	Open one of your lights and tap **....**
2	Tap the device name or **Rename** option.
3	Enter the new name and tap **Confirm**.
4	The app shows the new name.
